

The JAD logo is rendered in a large, white, stylized serif font. The letters are bold and closely spaced. A thin white diagonal line cuts across the top right corner of the image, passing behind the logo.

JAD

The background of the entire page is a photograph of three speckle park cattle. They are standing in a field, and their heads and shoulders are visible. They have distinctive black and white speckled patterns. Each cow has a yellow identification tag hanging from its ear. The tag on the left cow says 'S54', the middle cow says 'S25', and the right cow says 'S26'. The image is overlaid with a semi-transparent blue filter.

- ▶ Bull bodyweights, fat and muscle scans, and scrotal size measurements collected on August 14, 2025, by Roger Evans, Bovine Scanning Services Pty Ltd
- ▶ Semen morphology assessed by accredited veterinarian, Dr Hennie Strydom, Wellington Veterinary Hospital
- ▶ ADG = average daily weight gain since birth, in kilograms
- ▶ *As noted in the catalogue, Lot 2, DIC23U645 was used lightly to back up a stud AI program prior to sale
- ▶ All bulls given a Dectomax injectible drench on 14/8/2025. See page 5 of the sale catalogue for full animal health record
- ▶ DNA testing results are now back for Lots 27 and 28. They have DNA parent verified to the pedigree as stated in the catalogue
- ▶ Catalogue correction: Lot 22 (DIC23U647) was born on 10/9/2023, not 10/9/2022.

BBSE-accredited Semen and Soundness Evaluation carried out by Dr Hennie Strydom, Wellington Veterinary Hospital

JAD Speckle Park carries a rare five-star Breedplan Completeness of Performance star rating, ensuring greater accuracy of EBVs for JAD animals.

Black Dog Institute

We will be donating 10% of the sale proceeds of Lot 3, JADA Unanimous U616 (DIC23U616), to the Black Dog Institute. We have carried out this initiative at all JAD sales to date, donating a combined \$18,040. We look forward to adding to this total today.

NOW STREAMING.

Look behind the scenes at the incredible breed designed to maximise profit, minimise inputs, to build a high-performance commercial herd.
